

MEDIATION SERVICE NETS WEB EXPERTISE

An organisation that helps couples going through difficult times has launched a new website. Exeter-based Revell Research Systems designed the site for South West Mediation, of Southernhay.

Alastair Revell, managing consultant of Revell Research Systems, left, with John Loram, a director and founder of South West Mediation.

The website, www.southwestmediation.co.uk, is compliant with important web standards to ensure that as many visitors as possible can access it as well as complying with The Companies Act 2006. Alastair Revell, managing consultant of Revell Research Systems, said: "I am surprised just how few websites in Exeter comply with web standards or even with the law.

"Quality websites, built to web standards, are accessible to a wider audience and the owners of websites that comply with the law obviously face less risk."

John Loram, a director and founder of South West Mediation, added: "I am pleased with its design and quality. It is eye-catching and informative and will be an excellent means for people to find out about our service."
